

## CESaRE Associates Think Tank (Online Conference)

Steering the Journey of CESaRE in the Caribbean.

Join us on July 7th at 5:00 PM (**Trinidad Time**)

As a young NGO (legally based in Trinidad and Tobago), The Journal of Caribbean Environmental Sciences and Renewable Energy is eager to expand our activities, improve our relations with our Associate Network, and continue to innovate research publication in the region. We are increasingly encouraging our Associates to become active members of our management!

Get to know CESaRE more: [www.cesarejournal.org](http://www.cesarejournal.org)

(Meeting Link will be sent closer to the date)

### Think Tank

#### Your Input

As a CESaRE Associate, we will greatly benefit from your ideas on how CESaRE can improve our services and products in the region.

#### How Far Have We Come

During the Think Tank, we will guide you through the Mission and Vision of CESaRE, and all of the projects that we have created throughout the Caribbean.

#### How Far We Have To Go

To become the leading organization for research publication in the region, we still have a lot more work to do! Thus, as an Associate, you will be a key link to our expansion.

#### Your Growth

As an Associate, we want to offer as much support as possible for your professional growth and skills development. Thus, we want to hear from you about how we can better support your endeavours!

## CESaRE's Ambitious Goal

# USD \$40,000

CESaRE's Mission and Vision come at a cost. Our innovative features, publication fees, and development need your support to make our Vision a reality. We need to raise USD \$40,000. Your work will complement our efforts and help us to meet our goal ... and more!

## Change is on its way

We rely on the efforts of many people who believe in our Vision. Our Managing Directors have a strong mandate of increasing information access and revamping academic publication in the Caribbean. Too many people are left with a poor understanding of our diverse and sensitive region, and CESaRE will play a strong role in modern and innovative approaches.

You will work directly with the Managing Directors, finding potential funding opportunities, communicating our progress to a diverse audience, and building relationships with other activists in your respective countries.

## Want to Support CESaRE Further?

### Smaller one-off donations

CESaRE's growth is limited by various financial constraints. We rely heavily on one-off donations and Monthly donors to produce our various publications. Running a Podcast Series is not a cheap venture and being just one of our services, we have a strong push for public support of CESaRE.

### Hitting it big

With a goal of \$40,000 needed by the end of the year, larger and more sustainable funding opportunities are priority. One-off donations will only get us so far and thus we are seeking opportunities for more long-term funding and we need you to keep an ear on the ground!

### Gifts in kind

As an NGO, we are constantly finding unique ways to reward your efforts. Equally we want to expand our network. Your position will make you privy to all of CESaRE's initiatives and we will ensure that you are featured in our work! Just get in touch when needed!
