

## Journal of Caribbean Environmental Sciences and Renewable Energy

# Call for Papers

## CESaRE's second Academic Issue in 2020

The Journal of Caribbean Environmental Sciences and Renewable Energy is changing the landscape of Caribbean publishing. Our current Call for Papers is for an Open Issue promoting research across the region.

Modern publication is leaving the Caribbean behind. Today's climate extremes, energy demands and depleted oceans drive CESaRE to make research more open-access. Follow the link below to learn more about our Journal and the impact that your research will have.

Get to know CESaRE more: [www.cesarejournal.org](http://www.cesarejournal.org)

Welcome research submissions include,

Alternative Energy  
Industry and Transport  
Climate Change and Modelling

Marine Ecosystems and Fisheries  
Agriculture and Forestry  
Conservation

## The Issue

Submit  
Abstract

Or visit [cesarejournal.org/submissions](http://cesarejournal.org/submissions)

### 1. Submission Timeline

Abstract submissions for Issue 1 (Open Issue) are due Jul 24<sup>th</sup>, 2020. Earlier submissions are encouraged. Please use the hyperlinked button (left) to submit. All articles will undergo peer-review.

### 3. Publication Timeline

The Open Issue will be published in the last quarter of 2020. Your article will be given a formal DOI listing and will be available through all major academic search engines.

### 2. Submit your way!

You have enough research commitments and CESaRE will make it much easier to publish. Using basic formatting guidelines, you can take control of your paper. We will do the rest. There is no cost to publish.

### 4. Pushing Boundaries

Our current climate demands innovative steps to research access and publication. Your article will reach thousands of our followers and subscribers, with opportunity for follow-up discussion in our Podcast Series.
